

Hina Ali

BS Computer Science Student

Email: hina2015ali@gmail.com

Location: Rawalpindi, Pakistan

University: Fatima Jinnah Women Univ.

ABOUT ME

Motivated and passionate Computer Science student (6th Semester) with strong foundations in web and app development. Skilled in both front-end and back-end technologies, with a focus on creating user-friendly and efficient interfaces. Enthusiastic about integrating Artificial Intelligence (AI) into web development to build smarter, more dynamic digital solutions. Seeking an opportunity to grow and contribute in an innovative software environment.

EDUCATION

Bachelor of Science in Computer Science (BS CS) | 2023 – 2027

Fatima Jinnah Women University, Rawalpindi | 6th Semester

Intermediate in Computer Science

Jinnah Grammar College, Naushera

TECHNICAL SKILLS

Languages & Tools	HTML, CSS, JavaScript, PHP, SQL, XAMPP
Database	MySQL, SQL Server, wampp
Web Development	Responsive & Interactive Website Design
UI/UX	Basic Figma; User-friendly design principles
Cybersecurity	Completed Introductory Cybersecurity Course (Online)
Others	Git (basic), MS Office, Visual Studio Code, Canva, Adobe Photoshop, VS
Mobile	React Native, Expo Snack
Data & Cloud	Google Colab, Supabase

ACADEMIC PROJECTS

Electricity Management System

Tools: HTML, CSS, JavaScript, PHP, MySQL (XAMPP)

- Built a dynamic web-based system to manage electricity usage and billing.
- Implemented full-stack functionality with responsive front-end and secure database connections.
- Focused on usability, clean design, and data handling efficiency.

To-Do List Application (Database Project)

Tools: HTML, CSS, JavaScript, PHP, MySQL (XAMPP)

- Designed and built a task management web app with full CRUD operations (Create, Read, Update, Delete).
- Implemented a MySQL database to store tasks, due dates, completion status, and user categories.
- Added features like task filtering (Pending / Completed) and persistent data storage across sessions.
- Demonstrated strong database integration and front-end/back-end synchronization skills

Event Management System (Mobile App)

Tools: React Native, Expo Snack, Supabase

- Developed a cross-platform mobile application for managing events end-to-end.
- Integrated Supabase as the backend for real-time database and authentication.
- Designed intuitive UI/UX with React Native components for a smooth user experience.
- Presented data-driven findings through a structured analytical notebook.

CivicConnect – Complaint Management System

Tools: HTML, CSS, JavaScript, PHP, MySQL

- Developed a web platform for University Student to submit and track civic complaints.
- Built an admin panel for complaint management with status updates and filtering.
- Ensured secure data handling with a structured MySQL database design.
-

UI/UX & Graphic Design Projects

Tools: Adobe Photoshop, Canva

Created multiple visual design projects applying user-centered design principles and branding:

- **Biscuit Packaging Design** – Custom product label with brand identity, nutritional layout, and shelf-appealing visuals.
- **Restaurant Menu Design** – Clean, organized menu layout with category hierarchy, pricing, and restaurant branding.
- **Trifold Brochures** – Informational brochures with fold-optimized layout, imagery placement, and clear content flow.
- **Poster Design** – Single-sheet promotional poster focused on visual impact, composition, and messaging.

AREAS OF INTEREST

-
- Web Development (Front-End / Full Stack)
 - Mobile App Interfaces (Design & Functionality)
 - UI/UX Design
 - AI Integration in Web Applications (Future Learning Goal)
 - Analytics and Software

SOFT SKILLS

-
- Quick Learner & Adaptive
 - Problem-Solving
 - Team Collaboration & Communication
 - Creativity and Good Usability Sense
 - Multilingual: English, Urdu, Punjabi

CERTIFICATIONS

-
- **Introduction to Cybersecurity** – Online Course | 2025
